# WALLONIA EXPORT & INVESTMENT AGENCY

The Wallonia Export & Investment Agency (AWEX) is the institution in charge of the development and management of Wallonia's domestic and international economic relations.

Through a personalized, innovative, and sustainable approach, AWEX supports Walloon companies - regardless of their size, sector, or target market - in every step of their international endeavors. This includes exports, technological partnerships, and development abroad.

The agency's vast network of connections ensures the best advisors are always by your side. Our local anchors and agents abroad are capable of providing unparalleled insight to take your company to the next level. In addition, our connections will help establish your business in the global marketplace and promote it throughout the world. Training, incentives, and international financing are also available.

AWEX is also committed to strengthening Wallonia's position as the premier gateway for international investors seeking success in the heart of Europe. We work closely with them to inform, convince, and advise in every stage of their development.

Feel free to get in touch with one of our local or international agents via our websites listed below.

In our network of more than 400 employees in nearly 100 countries around the world, there is always someone ready and willing to support you in your approach.

## ACTIVITIES, PRODUCTS AND BRANDS

ABSCINT specializes in advanced in vivo imaging diagnostics, focusing on developing innovative PET tracers using single-domain antibodies (sdAbs) for precision targeting.

## NEW PRODUCTS AND INNOVATIONS

ABSCINT's primary product is a specific anti-HER2 PET tracer, which enables comprehensive whole-body imaging for evaluating disease heterogeneity in HER2-low and HER2-positive breast cancer. This non-invasive technology offers rapid imaging results within 90 minutes, with minimal radiation exposure. This innovation also opens the door to HER2 reclassification via image-guided biopsies, enhancing diagnostic accuracy, patient care, and monitoring of treatment efficacy.

## ACTIVITIES, PRODUCTS, INNOVATIONS AND BRANDS

DIAsource ImmunoAssays SA, part of the BioVendor Group, is a Belgian diagnostics company specializing in endocrinology and autoimmune diseases. Aiming to lead the RIA market, it offers a full range of RIA kits, gamma counters (Riamat), the Stratec RIA platform, and Conext 125. DIAsource also provides decontamination products for labs and nuclear medicine, delivering a full service to RIA users.

## NEW PRODUCTS AND INNOVATION

DIAsource offers a full range of RIA kits covering autoimmunity, hormones, cancer, cardiovascular disease, diabetes, fertility and the thyroid panel. We also provide automation including gamma counters, Riamat, and our Conext 125. We offer a broad range of assays which are only available in a ria format on the market.

## CERTIFICATION

DIAsource is ISO 9001 and ISO 13485 certified. Our CE-marked kits are available worldwide, except in the USA and Canada, where only selected kits are offered due to specific registration requirements.

## ACTIVITIES, PRODUCTS, INNOVATIONS AND BRANDS

Full-Life Technologies («Full-Life») is a fully integrated global radiotherapeutics company with operations in Belgium, Germany, and China. We aim to own the entire value chain for radiopharmaceutical research & development, production & commercialization to deliver clinical impact for patients. The Company endeavors to tackle fundamental challenges affecting radiopharmaceuticals today by pioneering innovative research that will shape the treatments of tomorrow.

We are comprised of a team of fast-moving entrepreneurs and seasoned scientists with a proven history of success in the life sciences, alongside radioisotope research and clinical development.

## ACTIVITIES, PRODUCTS, INNOVATIONS AND BRANDS

IRE ELiT, the innovation subsidiary of the Institute for Radioelements, is a radiopharmaceutical company established in 2010. It focuses on developing radiopharmaceuticals for molecular imaging and targeted therapy. Its flagship product, the Ge-68/Ga-68 generator, is a simple and innovative PET imaging solution, primarily used for neuroendocrine tumors (NETs) and recurrent prostate cancer.

## NEW PRODUCTS AND INNOVATION

IRE ELiT's Ge-68/Ga-68 generator is a simple and innovative solution inspired by the principles of Tc-99m generators. The generator eluate - a gallium chloride solution (Ga-68) - is used for in vitro radiolabeling of various radiopharmaceutical kits developed for positron emission tomography (PET) imaging.

The generator is suitable for manual use as well as for automatic use with synthesis modules and is compatible with all synthesis modules available on the market.

## CERTIFICATION

IRE ELiT's Ge-68/Ga-68 Generator is available worldwide through an extensive distributor network. The company holds Marketing Authorization in Europe and Canada, and a Drug Master File (DMF) is also available in the United States.

# MODELLO ARCHITECTES

Rue Bernus, 59  
B-6000 CHARLEROI

## CONTACT

Mr Gordian ROUSSEL, Project Manager  
+32 471 33 06 94  
gordian@modelloarchitectes.be

## ACTIVITIES, PRODUCTS, INNOVATIONS AND BRANDS

MODELLO Architectes is a Belgian-based company, providing building architecture services since 2005. Our teams of architects work in close cooperation with Structural Engineering, Technical Engineering and Real Estate agencies. Our core business is the construction of radiopharmacy and healthcare facilities. From preliminary draft to the final acceptance of the building, MODELLO Architectes leads the construction process through all phases.

## NEW PRODUCTS AND INNOVATION

In 2024, For the IRE (Belgium), MODELLO successfully implement a IBA cyclotron Cyclone 30 MeV in a new 2500 m<sup>2</sup> building, including bunkers, hotcells, cleanrooms and production labs.

MODELLO is currently overseeing the construction of the Full Life Technologies Limited headquarter in Europe. A 40 MeV Linear Accelerator is to be installed in this 4000 m<sup>2</sup> radiopharmacy facilities. MODELLO and TRACTEBEL are now developing a radiopharmacy prototype "From Greenfield To Greenfield".

## CERTIFICATION

Registered at the Belgian Architects Association (Ordre des architectes de Belgique).

# SCANNIX

Mr Dorian BUEKENHOUDT,  
Communication Associate  
+32 471 64 33 84  
[dorian@oncidium-life.org](mailto:dorian@oncidium-life.org)

## ACTIVITIES, PRODUCTS AND BRANDS

The Oncidium foundation is a non-profit organization dedicated to supporting and accelerating the development of radiotheranostics for cancer care. Through its three core pillars Access, Education, and Hope, the foundation works to connect patients, practitioners, and experts in the nuclear medicine field by raising awareness and improving access to radioligand therapies (RLT) worldwide.

## NEW PRODUCTS AND INNOVATION

Oncidium foundation's projects:

- Mister Bind - a comic book that explains radioligand therapy in a fun and accessible way, making it understandable for everyone, everywhere.
- RLT Channel - an online program featuring expert interviews and real patient experiences, aiming to demystify RLT for patients.
- RLT-Connect - a global treatment donation program that connects healthcare practitioners with radioisotope companies donating doses, enabling treatment for patients in financial need.
